Date of Birth

03/11/1972

Citizenship

Australian

Folio

Project:

Telstra Wholesale
<http://www.telstrawholesale.com>

Comments:

Determined to distance themselves from parent company Telstra Australia Telstra Wholesale rebranded their entire business. All online material was handled by DeadFish Design including a website, flash training tool & screensaver.

Project:

Lifestyle PAs

Comments:

Full brand & collateral was developed for Lifestyle PAs. A fresh but corporate logo was needed along with simple and cost effective stationery

Project:

Honky
<http://houseofhonky.com>

Comments:

Although a personal project, Honky has grown into a large development. The desire to print my own T-shirts extended into training myself in screenprinting and developing a range of garments for sale.
